## Improved margins

(All figures in brackets refer to the corresponding period in 2011)

Net sales for the third quarter amounted to SEK 2,863 million $(3,109)$. Organic growth was a negative 5 per cent (0). Operating profit excluding net restructuring costs of SEK 26 million (II3) amounted to SEK 142 million (126), corresponding to an operating margin of 5.0 per cent (4.I). Profit after tax and including restructuring costs was SEK 62 million (loss: 8), corresponding to earnings per share of SEK 0.37 (loss: 0.05 ). Operating cash flow amounted to SEK 123 million (124).

Nobia's sales for the third quarter were adversely impacted by weaker market development in all regions.

Negative currency effects of SEK 105 million (neg: 109) impacted net sales for the quarter. Sales declined 5 per cent organically.

The gross margin was 40.1 per cent (38.5), positively impacted by lower material prices, price increases and currency gains.

Operating profit improved, mainly a result of cost savings, lower material prices and price increases, which more than offset lower volumes and a negatively changed sales mix.

Currency effects contributed approximately SEK 10 million (neg: 5) to operating profit excluding restructuring costs, of which negative SEK 5 million (neg: 5) in translation effects and SEK 15 million (0) in transaction effects.

Net restructuring costs amounted to SEK 26 million (II3), primarily related to store refurbishments in France and savings measures in Poggenpohl.

The return on capital employed including restructuring costs was 3.2
per cent over the past twelve-month period (Jan-Dec 201I: 3.6).
Operating cash flow amounted to SEK 123 million (I24). Higher earnings generation and lower payments for structural measures offset increased investments during the quarter.

## Comments from the CEO

"Our efforts to enhance efficiency through cost savings and increased co-ordination have begun to generate results. Despite a weaker market trend and lower sales in the UK and the Nordic regions, the Group's gross margin and operating margin strengthened year-on-year.

It is also gratifying to see that growth was shown in the Continental Europe region. Project sales deferred during the first half of 2012 were delivered in the third quarter. The French refurbishment programme progressed as planned and the refurbished stores performed well.

Due to anticipations of a continued weak market scenario, the focus in the near future will be on continuous efficiency enhancements in all of the Group's business units," says Morten Falkenberg, President and CEO.

## UK region

Net sales for the third quarter amounted to SEK 967 million (I, I08). Organic growth was a negative 14 per cent (neg: 5). Net restructuring costs of SEK I million (I0) were charged to operating profit for the quarter. Operating profit excluding restructuring costs amounted to SEK 37 million (66) and the operating margin was 3.8 per cent (6.0). Currency effects on operating profit excluding restructuring costs totalled approximately SEK 5 million (neg: 15) comprising a translation effect of SEK 0 million and a transaction effect of SEK 5 million.

## Kitchen market

Demand in the UK weakened compared with the year-earlier period. Macroeconomic turbulence had an adverse effect on consumers' willingness to purchase kitchens.

## Nobia

Sales declined both to corporate customers (B2B sales) and through Magnet's store network. Magnet's sales fell primarily within Trade and regarding joinery, largely due to the bankruptcy of window supplier Oakworth Joinery in February 2012.
Negative currency effects of SEK 19 million (neg: 89) impacted net sales for the quarter.

The gross margin strengthened, primarily as a result of the positive effects of sales and raw material prices, as well as cost reductions.

Operating profit declined, primarily due to the negative volume trend, which was only partially offset by lower material prices, price increases and cost reductions.

Restructuring costs for the period primarily pertained to costs for the introduction of the range in Magnet stores.

Measured in local currency, operating profit for the region totalled GBP 3.5 million (6.3).

## Nordic region

Net sales for the third quarter amounted to SEK I,IOI million (I, I92). Organic growth was a negative 2 per cent (pos: 10 ). Marginal restructuring costs (16) were charged against operating profit for the quarter. Operating profit excluding restructuring costs totalled SEK 101 million (IO2) and the operating margin was 9.2 per cent (8.6). Positive currency effects of about SEK 5 million ( 10 ) on operating profit excluding restructuring costs comprised a negative translation effect of SEK 5 million and a positive transaction effect of SEK 10 million.

## Kitchen market

The Nordic kitchen market weakened year-on-year. The decline was primarily due to a weaker trend in the consumer segment, but also the professional segment is considered to have weakened somewhat, primarily at the end of the period.

Nobia
The sales decrease was attributable to markets in Sweden and Denmark. The decline mainly derived from the consumer segment, but growth in the professional segment was also negative at the end of the period.

Negative currency effects of SEK 67 million (neg: 8) impacted net sales for the quarter.

The gross margin improved, primarily as a result of price increases and lower material prices.

The marginal decrease in earnings mainly resulted from lower volumes, which were partially offset by lower costs and positive price effects. Positive effects were generated by the coordination of production in Sweden.

## Continental Europe region

Net sales for the third quarter amounted to SEK 802 million (8II). Organic growth was 6 per cent (neg: 6). Net restructuring costs of SEK 25 million (80) were charged to operating profit for the quarter. Operating profit excluding restructuring costs amounted to 42 million (loss: 18) and the operating margin was 5.2 per cent (neg: 2.2). Currency effects of approximately SEK 0 million (0) on operating profit excluding restructuring costs comprised a translation effect of SEK 0 million and a transaction effect of SEK 0 million.

## Kitchen market

Overall demand in the region's main markets is deemed to have weakened compared with the year-earlier period, due to the macroeconomic uncertainty.

## Nobia

The organic increase in sales was attributable to higher volumes in Hygena and Poggenpohl. Poggenpohl's sales increased primarily as a result of increased project sales, partially deriving from previously deferred deliveries to customers in Asia. Hygena's sales in comparable stores increased.
Negative currency effects of SEK 57 million (neg: I2) impacted net sales for the quarter.

The gross margin strengthened, mainly a result of higher volumes and lower costs, but also positive price effects.

The earnings improvement resulted primarily from higher volumes, cost savings and price increases.

Restructuring costs for the period derived primarily from store refurbishments in Hygena and cost-cutting measures in Poggenpohl.

During the quarter, 16 Hygena stores were refurbished. This means that only a few stores remain in the extensive refurbishment programme, which is scheduled for completion in the fourth quarter. A possible relocation of the remaining ten stores is being considered.

Interim report Q3 • 2012

## Restructuring measures in progress

Restructuring costs pertain to certain nonrecurring costs; see page II. Net restructuring costs for the period January-September amounted to SEK 100 million (145) and primarily pertained to costs for introducing the Group-wide range in the UK, but also to store refurbishments in Continental Europe and relocation of production in the Nordic region.

Approved and implemented restructuring measures of SEK I49 million (179) were charged to cash flow, of which SEK 114 million (107) derived from restructuring measures decided in the preceding year.

## Negotiations in Stemwede

Nobia has commenced union negotiations concerning a relocation of product manufacturing under the Hygena brand from Stemwede in Germany to the company's production facilities in the UK, and a closure of the operations for sales and manufacturing of kitchens in Stemwede, which are primarily conducted to German DIY retailers. How and when this can be carried out depends on the outcome of the negotiations and could lead to a need for provisions and impairment losses in the fourth quarter.

## Divested operations and fixed assets held for sale

In the period 2010-201I, Nobia acquired a number of stores from franchisees with the intention of selling these on. At the end of 2011, Nobia had two stores in Denmark and four stores in Sweden, a total of six stores, which are recognised in the Nordic region as discontinued operations and a divestment group held for sale in accordance with IFRS 5. No change took place in the first six months of 2012, but another store was acquired in Denmark during the third quarter.

Loss after tax for these stores amounted to SEK 16 million (loss: 6) for the period January-September 2012.

Nobia intends to divest one production property in both Denmark and Sweden in 2012. These properties are recognised in accordance with IFRS 5 under assets held for sale in the Nordic region.

## Corporate acquisitions and divestments

No corporate acquisitions or divestments were made during the period January-September 2012

## Personnel

The number of employees at the end of the period was $7,425(7,737)$. The decrease was primarily due to savings measures in all regions.

## Nomination Committee

Owners representing 53 per cent of the share capital and votes in Nobia have appointed a Nomination Committee comprising the following members: Thomas Billing (Chairman of the Nomination Committee), Nordstjernan; Fredrik Palmstierna, Latour; Ricard Wennerklint, If Skadeförsäkring; Björn Franzon, Swedbank Robur funds, and Johan Molin, Chairman of the Board.
Nobia's shareholders are welcome to submit comments and proposals to the Nomination Committee. Please contact: Tomas Billing, Chairman of the Nomination Committee, tel: +46 87885000 or by post to Nobia AB, Valberedningen, Box 70376, SE-I07 24 Stockholm

The Annual General Meeting will be held in Stockholm on Thursday, II April 2013.

## Related-party transactions

The Parent Company invoiced Group-wide services to subsidiaries in an amount of SEK 45 million (62) during the period.

The Parent Company reported no earnings from participations in Group companies (II2).

## Other matters

In September, the Swedish government proposed that corporation tax be lowered from 26.3 per cent to 22 per cent as of I January 2013. If the proposed tax reduction is introduced, Nobia's deferred tax liabilities and receivables on 31 December 2012 will decrease, to the extent that they are attributable to Swedish units. An analysis of the effects has been initiated and will be completed during the fourth quarter.

Interim report Q3•20I2

## Significant risks for the Group and Parent Company

Nobia is exposed to strategic, operating and financial risks, which are described on pages 30-3I of the 201I Annual Report. Demand in the Nordic professional market was weakly positive during the first six months, but has declined somewhat during the third quarter. Demand in other markets continued to be weak. This means that combined production and deliveries are still at a low level. Nobia continues to capitalise on synergies and economies of scale by harmonising the product range, co-ordinating production and enhancing purchasing efficiency. Nobia's balance sheet contains goodwill of SEK 2,590 million. The value of this asset item is tested if there are any indications of a decline in value and at least annually. Nobia's balance sheet also contains deferred tax assets, the value of which is dependent on Hygena reporting fiscal earnings. It is therefore critical to maintain the positive trend created by restructuring measures in Hygena to avoid impairment losses on goodwill and deferred tax assets. The uncertainties arising in regard to Stemwede in Germany are presented above.

## Report on Review of Interim Financial Information

## Introduction

We have reviewed the interim report of Nobia AB (publ) as of September 30, 2012 and for the nine-month period then ended. The Board of directors and the President are responsible for the preparation and presentation of this interim financial information in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

## Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SÖG) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Annual Accounts Act for the group and in accordance with the Annual Accounts Act for the parent company.
