Comments from the CEO

The work on simplifying processes and the product range is continuing and will be presented in more detail on the Capital Markets Day in Stockholm on 26 May," says Morten Falkenberg, President and CEO.

UK region

Net sales for the first quarter amounted to SEK 1,142 million (1,284). Organic growth was negative 4 per cent (pos: 1). No restructuring costs were charged to profit for the quarter. Operating profit amounted to SEK 54 million (41) and the operating margin was 4.7 per cent (3.2). The currency effect of SEK 5 million (neg: 30) on operating profit comprised a negative translation effect of SEK 5 million and a positive transaction effect of SEK 10 million.

Kitchen market

Demand is deemed to have weakened compared with the same quarter in the preceding year.

Nobia

The negative sales development was attributable to decreased kitchen sales both to end consumers and professional customers. However, accessories sales in Magnet Trade increased somewhat.

Negative currency effects of approximately SEK 91 million (neg: 95) had an adverse effect on net sales for the quarter.

The gross margin increased nearly 2 percentage points, mainly due to enhanced efficiency in production and logistics, which together with lower costs in the sales organisation meant that operating profit improved SEK 13 million to SEK 54 million (41). These positive effects offset the negative effect that the lower sales volume entailed.

Measured in local currency, the region's operating profit amounted to GBP 5.2 million (3.6).

Excluding these costs, operating profit was SEK 75 million (17) and the operating margin improved to 5.9 per cent (1.4). Kitchen market

Demand is deemed to have grown compared with the corresponding quarter in the preceding year, which is mainly attributable to a higher level of activity in new builds.

Nobia

Sales developed in line with the market and, accordingly, were particularly positive in the project segment. All primary markets contributed to the positive growth, although sales to the Norwegian market grew the most.

Negative currency effects of approximately SEK 106 million (neg: 64) had an adverse impact on net sales for the quarter.

The improvement in earnings was mainly attributable to higher sales volumes. However, these were somewhat countered by a negative sales mix, which also contributed to a weaker gross margin.

Kitchen market

Demand is deemed to have increased somewhat in Germany and France, but decreased slightly in Austria compared with the year-earlier period.

Nobia

The negative sales trend was mainly attributable to fewer deliveries to the Asian project market. However, sales in French company Hygena displayed a positive trend.

Negative currency effects of approximately SEK 90 million (neg: 93) impacted net sales for the quarter.

The gross margin improved as a result of a better sales mix and cost reductions. However, the improvements in earnings were offset by a negative sales volume trend.

The earnings contribution from divested units was a negative SEK 9 million during the preceding year.

The period's reversal of a previous restructuring reserve of SEK 12 million (neg: 24) pertains to savings measures in Hygena, France.

Restructuring measures in progress

Restructuring costs for the period amounted to a net of SEK 8 million (124). Divested operations and fixed assets for sale

In the period 2008-2010, Nobia acquired a total of 15 stores from franchisees in Denmark with the intention of selling these onward. Six of these stores were sold in 2009 and 2010. In the first quarter of 2011, two stores were closed and another five stores are planned to be discontinued during the second quarter of 2011. The costs for the closures of the seven stores were charged to the fourth quarter of 2010.

At the end of the first quarter of 2011, Nobia has seven stores in Denmark, which are recognised in the Nordic region as discontinued operations and divestment group held for sale in accordance with IFRS 5.

Profit from these stores amounted to SEK 0 million (7) during the period January-March 2011. Earnings in the preceding year included a capital gain of SEK 11 million.

Nobia intends to divest one production property in both Denmark and Sweden in 2011. These properties are recognised in accordance with IFRS 5 under assets held for sale in the Nordic region.

Board members Rolf Eriksen, Bodil Eriksson, Johan Molin, Thore Ohlsson, Lotta Stalin and Fredrik Palmstierna were re-elected. Morten Falkenberg, President and CEO of Nobia, and Nora Førisdal Larssen, who is a senior investment manager at Nordstjernen, were elected as new Board members. Hans Larsson and Stefan Dahlbo declined re-election.

The company's auditor KPMG AB, with Helene Willberg as the auditor in charge, was re-elected for the period until the end of the next Annual General Meeting. The Annual General Meeting appointed Johan Molin as the Chairman of the Board.

The Annual General Meeting approved a performance-based employee share option scheme for 2011. This means that a total of 1,800,000 employee share options will be allotted free-of-charge to approximately 100 executives of the Nobia Group. The number of options that can be exercised will be determined by the average increase in earnings per share over the three-year period 2011-2013. Each employee share option provides entitlement to one share in Nobia AB.

The Annual General Meeting resolved to authorise the Board for the period until the next Annual General Meeting to make decisions regarding the acquisition and transfer of treasury shares at the terms expressed in greater detail in the complete resolution. A detailed description of the employee share option scheme and other resolutions passed by the Annual General Meeting is available on Nobia's website.

Related-party transactions, Parent Company

The Parent Company invoiced Group-wide services to subsidiaries in an amount of SEK 22 million (1) during the period. Significant risks for the Group and Parent Company

Nobia is exposed to strategic, operating and financial risks. The trends in Nobia's primary markets varied during the first quarter of 2011. The market weakened in the UK, while it strengthened in the Nordic region and it was strengthened somewhat in Continental Europe. This means that combined production and deliveries are still at a low level. Nobia continues to capitalise on synergies and economies of scale by harmonising product lines, co-ordinating production and enhancing purchasing efficiency. For a more detailed description of risks and risk management, refer to pages 26-27 of Nobia's 2010 Annual Report.
